

## Reviews

I absolutely love the results of our photo session with Krista. We had a large group (14 in total) and kids ranging from 2 to 8. not an easy group to photograph! Krista did an amazing job and had the utmost patience throughout the entire session. Her photographic eye is extremely keen. There were actually shots that I thought would never work but the end results were incredible.

Our first look at our family photos brought tears to our eyes, it was just so nice to have our entire family captured like that and we actually had fun doing it! Krista's patience and knowledge came through again when it came time to choose our photos and decide on the finished products she was extremely helpful in making suggestions, especially with the press book design. And to top it all off her pricing was great. I can't wait for our next session with Krista!

I would love to recommend Krista to anyone with children that is considering hiring a photographer. We found her very patient with our children (and hence with us), and in taking her time - she managed to produce some lovely family moments.

We plan to make use of her services in the future and encourage you too as well.

Krista did our oldest daughter's wedding pictures and did them so beautifully..She takes time and has more patience than I have ever seen a photographer have. Her love for photography shines through. She made our daughter's wedding memories come to life. Thank you Krista. A job well done.

The wedding photos that Krista did for my son Ariel and his bride Sarah, were very special. They captured the visual aspects of the wedding in a creative way as well as the emotional nuances of their relationship. Her photographs are unique to each situation and her work is sensitive and original. As well, she is a superb technician; the photographs are very well crafted and composed in a technical sense as well as being artistic. Krista is a photographer who is obviously passionate about her work and I think she is a rising star on the Halifax professional photographic scene!

Krista took wonderful photos of my girls with our dogs! She was extremely patient with Karma (our crazy Portuguese Water Dog) and was great with the kids. We found her to be easy going yet efficient and good at directing the girls to get the shots she wanted. The results speak for themselves!

Thank you so much!!

Krista has a unique ability to capture a simple moment and make it absolutely beautiful. I have had the pleasure to work with Krista on a number of projects, but my wedding pictures stole the show! Patience, creativity and professionalism are just a few of the characteristics that make Krista a wonderful photographer. Krista, thank you so much for sharing your gift with the world.

Working with Krista was a pleasure. Her flexibility of scheduling demonstrated her willingness to work with our there. Her ability to coordinate staging in a variety of scenery and groupings allowed her to capture the natural essence of each personality. Krista has great interpersonal skills and was able to relate to children both young and old. She took advantage of every spontaneous moment and was able to capture the boys in action. All our friends and family who have seen her work were also very impressed. We can't wait for our 2011 theme!

Krista shot our wedding on June 26th. She went above and beyond our expectations and her photographic talent and skills blew us away. She is able to make you feel at ease in front of the camera (very important for those who get nervous about having their picture taken, like myself). It was very important to us to have a photographer that would make our wedding photos look like a story, and not just line us up for the standard photos. Krista certainly delivered, and her photos speak volumes of her talent. She is also willing to work with you to find photo package to suit your needs and budget. I am very glad we hired her!

Well we were certainly pleasantly surprised beyond anything we expected on the day we met Krista. We arrived with our 6 year old daughter and our silly little pug to meet Krista for a shoot called "Peanut Butter". We had no idea what lay ahead, and were so pleased with the results! Krista made us all feel at ease with her friendly manner and easy going personality. We went in with the idea that we might get a cute picture or two and we came out with some great memories and a lot of laughs. She will definitely get our highest recommendation to anyone looking for a photographer.
